

# Finiré 3" & 4" LED Recessed Lighting

Luxury LED Recessed Lighting by Ivalo

## Guaranteed Lutron control compatibility

- Standard Lutron 1% dimming driver with Soft-on, Fade-to-Black options
- Industry best 97 CRI, up to 2000 delivered lumens
- EcoSystem option digitally allows individual fixture control
- 10-year limited warranty

# Overview

## Why Choose LEDs?

**LEDs make sense for today's applications. Consider the benefits:**

Reduced energy costs,  
eligible for rebates

Reduced maintenance  
costs, 50,000+ hour  
lamp life

Environmentally  
friendly with little to  
no UV emissions

Provide the same  
look and feel as  
incandescents

Provide the same  
light output as a  
75W incandescent

## Why Choose the Ivalo Collection by Lutron?

**Guaranteed LED compatibility with high-performance 1% dimming.**

Guaranteed  
compatibility with  
Lutron controls

Standard Lutron  
driver with  
EcoSystem Soft-on,  
Fade-to-Black option

Energy Star  
and CA Title 24  
compliant options

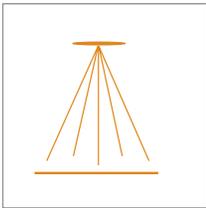

LED Control Center of  
Excellence and 24/7  
technical support

## Why Choose Finiré 3" and 4"?

**Architectural spec grade luminaire with industry leading LED light quality.**

Industry best rated  
97 CRI color quality

15° – 60° field  
changeable  
beam spread  
options

Residential  
1000+lumen (lm)  
insulation contact  
(IC) airtight options

Industry best  
fixture-to-fixture  
color consistency

10-year limited  
warranty

# Benefits

## Why Choose LEDs?

### **Energy efficient**

LEDs save over 40W of energy per fixture compared to incandescent bulbs, surpassing the energy efficiency of compact fluorescents. LEDs are also eligible for rebates up to \$50 per fixture, lowering your investment costs.\*

### **Reduced maintenance costs**

LEDs are generally rated for over 50,000 hours under normal conditions (longer, with dimming). Lamp replacements and associated costs are little, if any at all.

### **Environmentally friendly**

In addition to saving energy, LEDs are RoHS compliant and do not contain hazardous materials, such as mercury (which is found in compact fluorescent lamps).

### **Little to no UV radiation**

LEDs emit little to no UV radiation, which prevents flooring, window coverings, and painted surfaces from fading over time.

### **Incandescent look and feel**

Low-glare blended lensing and 2700K color temperature option provides the pleasing appearance of incandescence.

### **Comparable to incandescent light output**

LEDs have been optimized to provide light output equivalent to 75W incandescent lighting.

## Why Choose the Ivalo Collection by Lutron?

### **Tested for guaranteed compatibility with Lutron controls**

Ivalo fixtures were designed for ideal compatibility and performance with Lutron drivers and controls.

### **Standard Lutron 1% dimming driver**

Fixtures in the Ivalo Collection provide smooth, flicker-free dimming from 100% down to 1%, utilizing Lutron's Hi-lume drivers. (The EcoSystem option has the new Soft-on, Fade-to-Black dimming feature; see page 4).

### **Energy Star and 2016 CA Title 24 compliant options**

Finiré 3" offers models that meet Energy Star and the new California 2016 Title 24 standards.

### **24/7 technical support**

Lutron has 24/7 technical support as well as an LED Control Center of Excellence, devoted to providing answers to all questions about LED control solutions.

## Why Choose Finiré 3" and 4"?

### **Industry best 97 CRI**

Finiré 3" and 4" comes standard with industry best LEDs providing 97 CRI (standard with the 3" family) with an R9 value of 95.

### **Round, square, and trimless options; architectural color finishes**

Choose from round or square downlight, wall wash, and adjustable fixture options with trimmed or trimless assemblies. Available in a variety of color finishes with your choice of lens. Wet location options are available for shower and damp interior applications.

### **15°–60° field changeable beam spread options**

Choose spot lighting, narrow directional lighting for high ceilings, medium task lighting, or wide flood lighting for flexible, field changeable lighting in any application.

### **Residential 1000+lm IC airtight housing options**

Non-IC and airtight IC housing options are available to accommodate residential applications with Chicago Plenum rated options.

### **Industry best fixture-to-fixture color consistency**

Finiré 3" and 4" LEDs also provide industry best color consistency guaranteeing a one by two step MacAdam Ellipse. Most of the industry has over twice this tolerance using a two- or three-step area.

### **10-year limited warranty**

The Ivalo 10-year limited warranty covers material and workmanship defects on the fixture and dimming driver for up to 10 years. In addition, the LED color shift and LED color consistency will be covered for up to 5 years.

## Why Choose EcoSystem?

EcoSystem is a two-wire, digital control system that allows you to individually address each fixture. Selecting the EcoSystem control option for your Finiré fixture lets you easily reconfigure lighting zones to accommodate changes in a space (such as rearranging furniture), without rewiring.

Finiré has residential FCC (Part 15B) compliant options and EcoSystem is available with HomeWorks QS via a GRAFIK Eye QS or DIN rail power module.

Visit [lutron.com/homeworksQS](http://lutron.com/homeworksQS) for more information.

\*Go to [lutron.com/rebates](http://lutron.com/rebates) for rebate eligibility by state

## Flexible Zoning

The true strength of Lutron's EcoSystem digital addressable technology is that it allows for fixture zoning to be done independent of the electrical circuiting. You no longer need a control circuit for each zone of lights. You can program the zones digitally, meaning you're no longer pressured to finalize zoning during the design phase, and not locked into it even after the wires are run.

## Guaranteed Load Compatibility

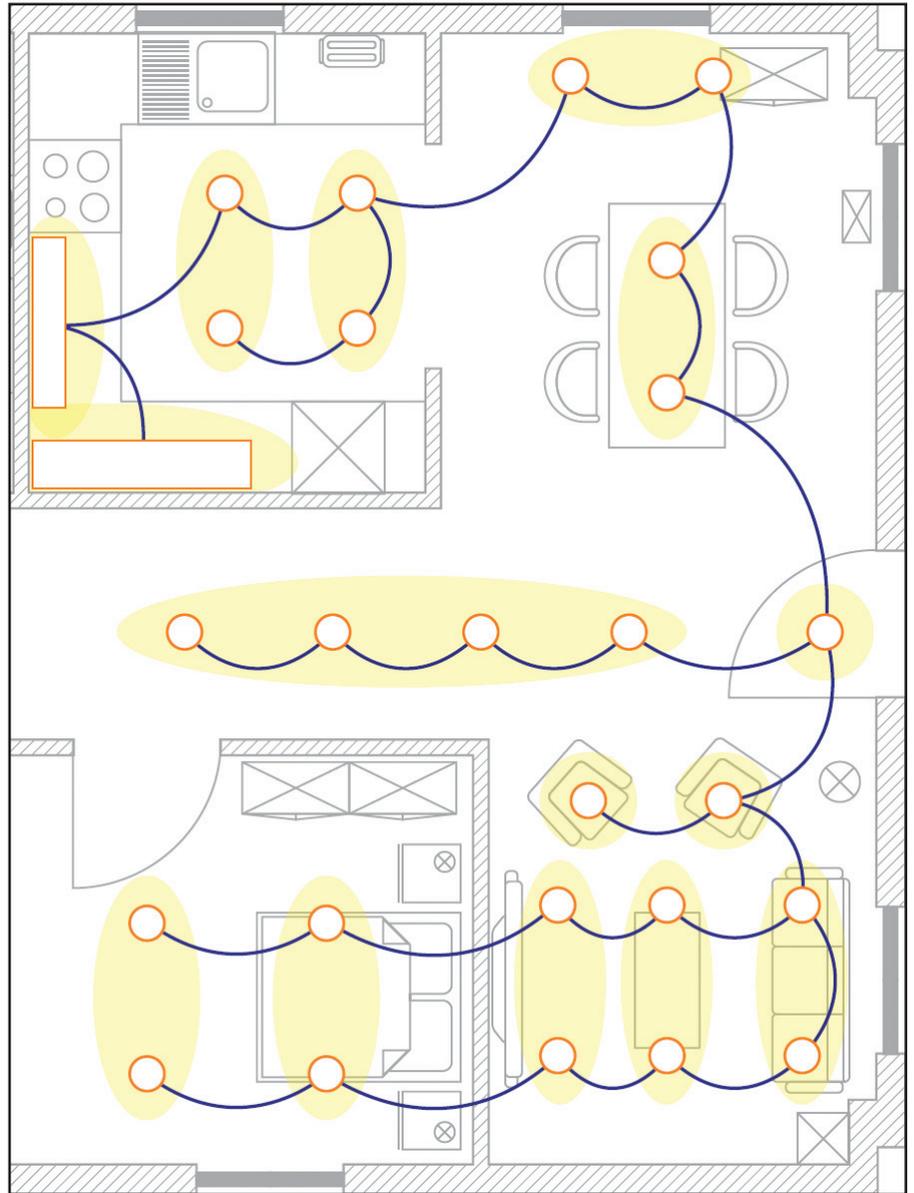

When pairing Lutron EcoSystem digital controls with EcoSystem digital drivers, the compatibility is guaranteed. Lutron owns the relationship and communication between the two devices.

## Save Electrical Closet Space

The digital communication allows for large number of fixtures to be controlled by one smaller controller. This saves significant space in the electrical closet by reducing the footprint required to control up to 128 fixtures to a single device.

## Soft-on, Fade-to-Black Dimming

This feature provides not only beautiful, flicker-free dimming down to 1%, but also provides a soft, incandescent-like transition between 1% and off.

# Finiré 3" & 4" and EcoSystem

## Quality of Light

Finiré 3" and 4" lighting offers industry best LED color quality backed by a 10-year limited warranty (with LED performance coverage for 5 years).

## Color Rendering

Colors will always appear their most vibrant with Finiré 97 CRI LEDs.

## Color Consistency

Guaranteed fixture-to-fixture color consistency for beautiful light throughout the entire application.

# Finiré 3" & 4" and LED quality

# The Finiré 3" family

Finiré 3" LED recessed lighting comes with more features in a smaller package, while eliminating the guesswork of ensuring LED compatibility.

# 3" Fixture Types and Options

Finiré 3" fixtures come standard with high quality 97CRI LEDs and the Lutron 1% dimming driver that guarantees Lutron control compatibility. A range of new features, including narrow spot optics, hot aiming, and high efficacy 1100lm IC rated fixtures, makes this new family ideal for high-end residential applications.

## Fixture Types and Options

### Type

Downlight, Adjustable, Infinite Adjustable

### Size (opening)

3"

### Housing

Non-IC, IC

### Aperture Style

Round, Square

### LED Type

17W, 650lm, 97CRI, R9=95 (15 degree beam only)  
 17W, 850lm, 97CRI, R9=95  
 17W, 1100lm, 97CRI, R9=95  
 29W, 1750lm, 97CRI, R9=95 (Non-IC only)

### Color Temperature

2700K, 3000K, 3500K

### Beam Spread

15°, 28°, 40°, 60°

### Trim

Round Trimmed, Round Trimless, Round Pinhole  
 Square Trimmed, Square Trimless, Square Pinhole

### Hanging

14–24" Adjustable Hanging Bars  
 9.5–15" Adjustable Narrow Joist Hanging Bars

### Control Method

2-Wire, 120V~  
 3-Wire, 120/277V~  
 EcoSystem, 120/277V~  
 \* EcoSystem comes standard with Soft-on, Fade-to-Black dimming feature

### Ceiling Thickness

Standard (1/2"–5/8")  
 Thick Ceiling (custom up to 2")  
 Trimless Wood/Stone (.5"-1.5")

# The Finiré 4" family

Finiré 4" LED recessed lighting comes standard with Lutron smooth 1% dimming while guaranteeing Lutron control compatibility.

# 4" Fixture Types and Options

Finiré eliminates guesswork by ensuring 100% compatibility between LED fixtures, drivers, and controls. Available in 17W-35W models — all delivering smooth, flicker-free dimming. This complete solution combines an architectural grade fixture with high-performance Hi-lume LED drivers designed to work with Lutron dimmers/controls.
